SFY 2017 Project Priority List (PPL)

SFY 2017 Intended Use Plan (IUP)

Proposed Amendment I

September 28, 2016

Revision of SFY 2017 Project Priority List

The CWSRF SFY 2017 IUP is a strategic plan outlining the program's financial and pollution control goals and activities. Finalized on July 1, 2016 the IUP includes the PPL, which is a list of communities that had expressed interest in participating in the program. In accordance with program regulations, the SFY 2017 PPL is being amended to add five projects. Additionally, the PPL will reflect the updated Green Project Reserve (GPR) and additional subsidization amounts as required under the FFY 2016 Capitalization Grant.

I. Priority List Revisions

The attached SFY 2017 CWSRF PPL has been revised to reflect the changes below. Eligibility requirements for CWSRF projects are identified in Sections 603(c) and 212 of the Federal Water Pollution Control Act and OWRB CWSRF program administration rules. Other CWSRF loan projects anticipating funding during SFY 2017 will not be adversely affected by these amendments.

Addition of New Projects- Pauls Valley Municipal Authority, Perry Municipal Authority, Muskogee Municipal Authority, Chickasha Municipal Authority, and Lawton Water Authority each submitted a request to be considered for loan funding during SFY 2017 for the planning or construction of stormwater and wastewater infrastructure improvements.

Other changes- Several entities with projects listed on the SFY 2017 CWSRF PPL have ranking changes due to revised project items or construction estimates and/or target project approval dates. The list has been revised to reflect these adjustments. Total funds required for projects yet to be approved in SFY 2017-2021 are now \$325,711,500.

II. Additional Requirements as required under the FFY 2016 Capitalization Grant:

Green Project Reserve

- Porum PWA's project has been identified as including elements to meet GPR requirements under FFY 2016 appropriations. The project descriptions and business cases (if required) are available on OWRB's website at www.owrb.ok.gov/greenreserve at the time of project funding.

Additional Subsidy

- To date, no projects have been approved to receive additional subsidization under the FFY 2016 Appropriations Provisions. Project type and procedures for award of additional subsidy are identified per the SFY 2017 IUP.

III. Public Notice

This amendment is being made with adequate public notice in accordance with the procedures provided in 40 CFR Part 35 Subpart K Paragraph 35.3150(c) and Chapter 50, Part 3 of the OWRB CWSRF Regulations. The OWRB will issue notice, on September 28, 2016 with a summary of the amendment, entitled *SFY 2017 Project Priority List Amendment I*. This amendment may be found on the OWRB website www.owrb.ok.gov/cwsrf.
