Thanks to the Oklahoma Water Resources Board, Oklahoma communities and companies who provided support for this workshop. Numerous private engineers and planning consultants have donated their time for this training:

Benham Group, Engineering Consultants
R.D. Flanagan & Associates, Planning Consultant
Meshek & Associates, Water Resources Engineering
HISINC, LLC Water Resources Engineering

Attendees will earn 6 Continuing Education Credits that can be applied to your CFM requirements or professional development hours for professional engineers or licensed surveyors. The Oklahoma Floodplain Managers Association, the OWRB, FEMA and the Corps of Engineers provided funds and in kind services for this workshop.
