

Oklahoma Groundwater Resources

Groundwater Wells With Water Level Data

- Wells with Water Levels (2,195)
- Major Aquifers

The OWRB collects groundwater level information for various projects and purposes. This map represents the locations of water wells in the OWRB Well Logs database that have associated water level measurements. For more information please visit the OWRB's web site at: (<http://www.owrb.ok.gov>) (7/26/2013)
