

TABLE OF CONTENTS

Figure 1. USGS 8-digit Hydrologic Unit Codes for Oklahoma.	3
Figure 2. Beneficial Use Monitoring Program permanent ambient trend monitoring sites.	9
Figure 3. USGS 4-digit HUC basins.	21
Figure 4 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Mocane (AT157000), 2001-2006.	30
Figure 5a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d & e), Minerals (f & g), and Nutrients (h) for the Cimarron River at Ames (AT158115), 2003-2006.	38
Figure 6a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Buffalo (AT157950), 2001-2006.	41
Figure 7a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Dover (AT159100), 2001-2006.	44
Figure 8a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Guthrie (AT160000), 2001-2006.	47
Figure 9a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Oilton (AT161500), 2001-2006.	50
Figure 10a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Ripley (AT161450), 2001-2006.	53
Figure 11 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Waynoka (AT158000), 2003-2006.	56
Figure 12 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Skeleton Creek at Lovell (AT160500), 2001-2006.	59
Figure 13 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Ralston (AT152500), 2001-2006.	67
Figure 14 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Black Bear Creek at Pawnee (AT153000), 2001-2006.	70
Figure 15 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Chickaskia River at Blackwell (AT152000), 2001-2006.	73
Figure 16 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Salt Fork of the Arkansas River at Ingersoll (AT148450), 2001-2006.	76
Figure 17 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Salt Fork of the Arkansas River near Tonkawa (AT151000), 2001-2006.	79
Figure 18 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Big Cabin Creek at Big Cabin (AT191000), 2001-2006.	87
Figure 19 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and	

Nutrients (f) for Bird Creek at Catoosa (AT178050), 2001-2006	90
Figure 20 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Caney River at Ramona (AT175500), 2001-2006	93
Figure 21 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Elk River at Tiff City (MO) (AT189000), 2001-2006.....	96
Figure 22 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Honey Creek at Grove (AT189090), 2001-2006.....	99
Figure 23 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Chouteau (AT191530), 2001-2006.....	102
Figure 24 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Commerce (AT185000), 2001-2006.....	105
Figure 25 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Connor Bridge (AT185010), 2001-2006.....	108
Figure 26 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Langley (AT190500), 2001-2006.....	111
Figure 27 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Spring Creek at Murphy (AT191558), 2001-2006.....	114
Figure 28 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Spring River at Quapaw (AT188000), 2001-2006.....	117
Figure 29 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Verdigris River at Inola (AT178600), 2001-2006.....	120
Figure 30 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Verdigris River at Keetonville (AT176000), 2001-2006.....	123
Figure 31 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Verdigris River at Lenepah (AT171000), 2001-2006.....	126
Figure 32 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Verdigris River at Wagoner (AT178900), 2001-2006.....	129
Figure 33 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Brushy Creek at Haileyville (AT231600), 2001-2006.....	136
Figure 34 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Bridgeport (AT228500), 2001-2006.....	139
Figure 35 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Calvin (AT231500), 2001-2006.....	142
Figure 36 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Konawa (AT229400), 2001-2006.....	145
Figure 37 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Purcell (AT229200), 2001-2006.....	148

Figure 38 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Taloga (AT228250), 2001-2006.....	151
Figure 39 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Whitefield (AT245000), 2001-2006.	154
Figure 40 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Little River at Sasakwa (AT231000), 2001-2006.	157
Figure 41 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Beaver (AT234000), 2001-2006.....	168
Figure 42 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Fort Supply (AT234450), 2001-2006.	171
Figure 43 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Gate (AT234200), 2001-2006.	174
Figure 44 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Guymon (AT232500), 2001-2006.	177
Figure 45 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Laverne (AT234400), 2003-2006.....	180
Figure 46 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Turpin (AT233900), 2001-2006.....	183
Figure 47 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Deep Fork River at Beggs (AT243500), 2001-2006.	186
Figure 48 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Deep Fork River at Stroud (AT242500), 2001-2006.....	189
Figure 49 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Dustin (AT242200), 2001-2006.....	192
Figure 50 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at El Reno (AT239500), 2001-2006.	195
Figure 51 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Harrah (AT241550), 2000-2005.....	198
Figure 52 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Seiling (AT238000), 2001-2006.	201
Figure 53 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Shawnee (AT241700), 2001-2006.....	204
Figure 54 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Watonga (AT2393000), 2003-2006.....	207
Figure 55 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Wetumka (AT242000), 2001-2006.....	210
Figure 56 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and	

Nutrients (f) on the North Canadian River at Woodward (AT237500), 2001-2006.....	213
Figure 57 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Wolf Creek at Fort Supply (AT237050), 2001-2006.....	216
Figure 58 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Bixby (AT165520), 2001-2006.	225
Figure 59 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Haskell (AT165570), 2001-2006.	228
Figure 60 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Arkansas River at Moffett (AT249453), 2001-2006.	231
Figure 61 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Arkansas River at Muskogee (AT194500), 2001-2006.....	234
Figure 62 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Sand Springs (AT164400), 2001-2006.	237
Figure 63 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Barren Fork River at Eldon (AT197000), 2001-2006.	240
Figure 64 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) Caney Creek at Barber (AT197360), 2001-2006.	243
Figure 65 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) Flint Creek at Flint (AT196000), 2001-2006.....	246
Figure 66 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Fourche-Maline Creek at Red Oak (AT247550), 2001-2006.....	249
Figure 67 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Illinois River at Tahlequah (AT196500), 2001-2006.	252
Figure 68 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Illinois River at Watts (AT195500), 2001-2006.	255
Figure 69 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Lee Creek at Short (AT249800), 2003-2006.....	258
Figure 70 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Poteau River at Heavener (AT247350), 2001-2006.	261
Figure 71 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Poteau River at Pocola (AT249435), 2001-2006.	264
Figure 72 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) Sager Creek at West Siloam Springs (AT195865), 2001-2006.	267
Figure 73 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Elk Creek at Roosevelt (AT304500), 2001-2006.	275
Figure 74 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Elm Fork River at Granite (AT303500), 2001-2006.	278

Figure 75 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Fork of the Red River at Carter (AT301500), 2001-2006.....	281
Figure 76 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Fork of the Red River at Headrick (AT305000), 2001-2006.	284
Figure 77 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Salt Fork of the Red River at Elmer (AT301110), 2001-2006.....	287
Figure 78 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Salt Fork of the Red River at Mangum (AT300500), 2001-2006.	290
Figure 79 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on East Cache Creek at Walters (AT311000), 2001-2006.	299
Figure 80 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Mud Creek at Courtney (AT315700), 2001-2006.....	302
Figure 81 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Davidson (AT308000), 2001-2006.....	305
Figure 82 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Terral (AT315500), 2001-2006.	308
Figure 83 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Sandy Creek at Eldorado (AT299710), 2001-2006.....	311
Figure 84 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Alex (AT328100), 2003-2006.....	314
Figure 85 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Anadarko (AT326500), 2001-2006.	317
Figure 86 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Cordell (AT325300), 2001-2006.	320
Figure 87 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Durwood (AT331000), 2001-2006.....	323
Figure 88 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at McClure (AT324200), 2001-2006.	326
Figure 89 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Paul's Valley (AT328500), 2001-2006.....	329
Figure 90 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on West Cache Creek at Taylor (AT315050), 2001-2006.	332
Figure 91 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Blue River at Durant (AT332500), 2001-2006.	342
Figure 92 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Clear Boggy Creek at Caney (AT335000), 2001-2006.....	345
Figure 93 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and	

Nutrients (f) on the Glover River at Glover (AT337900), 2001-2006.	348
Figure 94 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Antlers (AT336200), 2001-2006.	351
Figure 95 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Big Cedar (AT335700), 2001-2006.....	354
Figure 96 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Fort Townson (AT336710), 2002-2006.....	357
Figure 97 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Tuskahoma (AT335780), 2001-2006.	360
Figure 98 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Little River at Cloudy (AT337100), 2001-2006.....	363
Figure 99 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Little River at Holly Creek (AT338000), 2003-2006.	366
Figure 100 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Mountain Fork River at Eagletown (AT339000), 2001-2006.	369
(Figure 101 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Mountain Fork River at Smithville (AT338840), 2001-2006.....	372
Figure 102 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Muddy Boggy Creek at Atoka (AT332950), 2001-2006.....	375
Figure 103 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Muddy Boggy Creek at Unger (AT335300), 2001-2006.	378
Figure 104 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Harris (AT336820), 2001-2006.	381
Figure 105 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Hugo (AT335500), 2001-2006.....	384
