Oklahoma Water Resources Board

**Subject: Interim Quarterly Report (Q3 2019)
Site Specific Water Management and Conservation Plan
Hanson Aggregates LLC – Troy Quarry, Johnston County, OK**

Dear Mr. Wilkins:

This is in reference to the Management Plan submitted to OWRB on December 28, 2012 following our December 27, 2012 consultation discussion with OWRB Staff (yourself, Mr. Christopher R. Neel and Ms. Maria A. Moreno) at OWRB's Office regarding the Site-Specific Water Management and Conservation Plan (Management Plan) for Hanson Aggregates' Troy Quarry (formerly known as "Mill Creek" Quarry).

Please note that Troy Quarry applications are currently pending with OWRB, and Mining Permit (L.E.-2689) was issued by ODOM on July 22, 2019, and became a "producing" mine on October 9, 2019, by physically commencing "permitted extraction of minerals from natural deposits" at the Troy Quarry (MSHA Mine ID# 3402198).

Please accept this letter as our Interim Quarterly Report pursuant to 82 O.S. 1020.2 (E) and 785:30-15 for Q3 2019 and hereby report the following:

- (1) Troy Quarry was not a producing mine in Q3 2019;
- (2) There was NO Pit Water accumulated or used at the Troy Quarry in Q3 2019;
- (3) Troy Quarry has adopted the Management Plan before January 1, 2013, and will implement the plan as soon as it becomes a "producing" mine. It is our understanding from the consultation meeting on December 27, 2012, that it will maintain the "exempt mine" status for Troy Quarry for Hanson Aggregates LLC.

Please contact the undersigned at (972) 814-4122 or Hanson Aggregates LLC, 300 E. John Carpenter Freeway, Suite 1645, Irving, TX 75062, for any further assistance.

Sincerely,

Lalit Bhatnagar, P.E.

Region Director – Environment, Safety & Health
