

LIST OF FIGURES

Figure 1. USGS 8-digit Hydrologic Unit Codes for Oklahoma.	28
Figure 2. Beneficial Use Monitoring Program permanent ambient trend monitoring sites.	33
Figure 3. USGS 4-digit HUC basins.	45
Figure 4a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Mocane (AT157000), 1999-2004.	54
Figure 5 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Buffalo (AT157950), 1999-2004.	62
Figure 6a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Dover (AT159100), 1999-2004.	65
Figure 7a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Guthrie (AT160000), 1999-2004.	68
Figure 8a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Oilton (AT161500), 1998-2004.	71
Figure 9a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Orienta (AT158110), 1999-2004.	74
Figure 10a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Cimarron River at Ripley (AT161450), 2000-2004.	77
Figure 11a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Skeleton Creek at Lovell (AT160500), 1998-2004.	80
Figure 12a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Ralston (AT152500), 1999-2004.	88
Figure 13a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Black Bear Creek at Pawnee (AT153000), 1999-2004.	91
Figure 14a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Chickaskia River at Blackwell (AT152000), 1999-2004.	94
Figure 15a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Salt Fork of the Arkansas River at Ingersoll (AT148450), 1999-2004.	97
Figure 16a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Salt Fork of the Arkansas River near Tonkawa (AT151000), 2000-2004.	100
Figure 17a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Big Cabin Creek at Big Cabin (AT191000), 1999-2004.	109
Figure 18a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and	

Nutrients (f) for Bird Creek at Catoosa (AT178050), 1999-2004.	112
Figure 19a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Caney River at Ramona (AT175500), 1998-2004.	115
Figure 20a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Elk River at Tiff City (MO) (AT189000), 1999-2004.	118
Figure 21a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Honey Creek at Grove (AT189090), 1998-2004.	121
Figure 22a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Chouteau (AT191530), 1999-2004.	124
Figure 23a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Commerce (AT185000), 2000-2004.	127
Figure 24a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Connor Bridge (AT185010), 1998-2004.	130
Figure 25a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Neosho River at Langley (AT190500), 1998-2004.	133
Figure 26a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Spring Creek at Murphy (AT191558), 1999-2004.	136
Figure 27a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Spring River at Quapaw (AT188000), 1998-2004.	139
Figure 28a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for Verdigris River at Inola (AT178600), 2000-2004.	142
Figure 29a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Verdigris River at Keetonville (AT176000), 1999-2004.	145
Figure 30a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Verdigris River at Lenepah (AT171000), 1999-2004.	148
Figure 31a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Verdigris River at Wagoner (AT178900), 1999-2004.	151
Figure 32a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Brushy Creek at Haileyville (AT231600), 1998-2004.	158
Figure 33a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Bridgeport (AT228500), 1999-2004.	161
Figure 34a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Calvin (AT231500), 1998-2004.	164
Figure 35a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Konawa (AT229400), 1998-2004.	167

Figure 36a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Purcell (AT229200), 1999-2004.	170
Figure 37a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Taloga (AT228250), 1999-2004.	173
Figure 38a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Canadian River at Whitefield (AT245000), 1999-2004.	176
Figure 39a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Little River at Sasakwa (AT231000), 1998-2004.	179
Figure 40a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Beaver (AT234000), 1999-2004.	190
Figure 41a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Fort Supply (AT234450), 2000-2004.	193
Figure 42a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Gate (AT234200), 2000-2004.	196
Figure 43a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Guymon (AT232500), 1999-2004.	199
Figure 44a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River near Laverne (AT234400), 1999-2000 and 2003-2004.	202
Figure 45a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Beaver River at Turpin (AT233900), 2000-2004.	205
Figure 46a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Deep Fork River at Beggs (AT243500), 1998-2004.	208
Figure 47a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Deep Fork River at Stroud (AT242500), 1999-2004.	211
Figure 48a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Dustin (AT242200), 1998-2004.	214
Figure 49a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at El Reno (AT239500), 1999-2004.	217
Figure 50a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Harrah (AT241550), 1999-2004.	220
Figure 51a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Seiling (AT238000), 1999-2004.	223
Figure 52a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Shawnee (AT241700), 2000-2004.	226
Figure 53a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and	

Nutrients (f) on the North Canadian River near Watonga (AT239300), 2003-2004.	229
Figure 54a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Wetumka (AT242000), 1999-2004.....	232
Figure 55a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Canadian River at Woodward (AT237500), 2000-2004.....	235
Figure 56 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Wolf Creek at Fort Supply (AT237050), 1999-2004.....	238
Figure 57a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Bixby (AT165520), 1998-2004.	246
Figure 58a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Haskell (AT165570), 1998-2004.	250
Figure 59a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Arkansas River at Moffett (AT249453), 1999-2004.	253
Figure 60a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Arkansas River at Muskogee (AT194500), 1999-2004.....	256
Figure 61a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) for the Arkansas River at Sand Springs (AT164400), 1999-2004.	259
Figure 62a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Barren Fork River at Eldon (AT197000), 1999-2004.	262
Figure 63a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) Caney Creek at Barber (AT197360), 1999-2004.	265
Figure 64a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) Flint Creek at Flint (AT196000), 1999-2004.....	268
Figure 65a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Fourche-Maline Creek at Red Oak (AT247550), 1998-2004.....	271
Figure 66 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) at the Illinois River at Tahlequah (AT196500), 1999-2004.	274
Figure 67a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) at the Illinois River at Watts (AT195500), 1999-2004.	277
Figure 68a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) at Lee Creek near Short (AT249800), 2003-2004.	280
Figure 69a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Poteau River at Heavener (AT247350), 1998-2004.	283
Figure 70a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) the Poteau River at Pocola (AT249435), 1999-2004.	286

Figure 71a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) Sager Creek at West Siloam Springs (AT195865), 1999-2004.	289
Figure 72a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Elk Creek at Hobart (AT304500), 1998-2004.	297
Figure 73a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Elm Fork River at Mangum (AT303500), 1998-2004.	300
Figure 74a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Fork of the Red River at Carter (AT301500), 1998-2004.....	303
Figure 75a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the North Fork of the Red River at Headrick (AT305000), 1998-2004.	306
Figure 76a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Salt Fork of the Red River at Elmer (AT301110), 1998-2004.	309
Figure 77a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Salt Fork of the Red River at Mangum (AT300500), 2000-2004.	312
Figure 78a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on East Cache Creek at Walters (AT311000), 1998-2004.	322
Figure 79a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Mud Creek at Courtney (AT315700), 1998-2004.....	325
Figure 80a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Davidson (AT308000), 1999-2004.	328
Figure 81a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Terral (AT315500), 1998-2004.	331
Figure 82a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Waurika (AT312720), 1998-2003.....	334
Figure 83a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Sandy Creek at Eldorado (AT299710), 1998-2004.....	337
Figure 84 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Alex (AT328100), 2003-2004.	340
Figure 85a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Anadarko (AT326500), 1999-2004.	343
Figure 86a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Cordell (AT325300), 1998-2004.	346
Figure 87a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Durwood (AT331000), 1998-2004.....	349
Figure 88a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and	

Nutrients (f) on the Washita River at Hammon (AT324200), 1998-2004.....	352
Figure 89a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Washita River at Paul's Valley (AT328500), 1998-2004.....	355
Figure 90a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on West Cache Creek at Taylor (AT315050), 1998-2004.	358
Figure 91a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Blue River at Durant (AT332500), 1998-2004.	368
Figure 92a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Clear Boggy Creek at Caney (AT335000), 1998-2004.	371
Figure 93a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Glover River at Glover (AT337900), 1998-2004.	374
Figure 94a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Antlers (AT336200), 1998-2004.	377
Figure 95a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Big Cedar (AT335700), 1998-2004.....	380
Figure 96 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Fort Townson (AT336710), 2002-2004.....	383
Figure 97a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Kiamichi River at Tuskahoma (AT335780), 1998-2004.	386
Figure 98a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Little River at Cloudy (AT337100), 1998-2004.....	389
Figure 99 a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Little River at Holly Creek (AT338000), 2003-2004.	392
Figure 100a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Mountain Fork River at Eagletown (AT339000), 1998-2004.	395
Figure 101a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Mountain Fork River at Smithville (AT338840), 1998-2004.....	398
Figure 102a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Muddy Boggy Creek at Atoka (AT332950), 1999-2004.	401
Figure 103a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on Muddy Boggy Creek at Unger (AT335300), 1999-2004.	404
Figure 104a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Harris (AT336820), 1998-2004.	407
Figure 105a-f. Dissolved Oxygen (a), pH (b), Turbidity (c), Total Dissolved Solids (d), Minerals (e), and Nutrients (f) on the Red River at Hugo (AT335500), 1998-2004.	410
