

LIST OF TABLES

Table 1. Permanent Ambient Trend Monitoring Stations and their Beneficial Use Support Status.	17
Table 2. Eight Digit United States Geological Survey HUC Watersheds.	26
Table 3. Permanent Ambient Trend Monitoring Stations.	29
Table 4. Variables Monitored by the BUMP Stream Sampling Program.....	34
Table 5. Permanent Ambient Trend Monitoring Stations and their Beneficial Use Support Status.	46
Table 6. Permanent Ambient Trend Monitoring Stations Located in HUC 1104.....	51
Table 7. Toxicant exceedances in HUC 1104.	51
Table 8. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1104. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	52
Table 9. Permanent Ambient Trend Monitoring Stations Located in HUC 1105.....	58
Table 10. Toxicant exceedances in HUC 1105.	58
Table 11. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1105. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	58
Table 12. Permanent Ambient Trend Monitoring Stations Located in HUC 1106.....	84
Table 13. Toxicant exceedances in HUC 1106.	84
Table 14. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1106. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	85
Table 15. Permanent Ambient Trend Monitoring Stations Located in HUC 1107.....	104
Table 16. Toxicant exceedances in HUC 1107.	104
Table 17. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1107. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	105
Table 18. Permanent Ambient Trend Monitoring Stations Located in HUC 1109.....	155
Table 19. Toxicant exceedances in HUC 1109.	155
Table 20. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1109. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	156

Table 21. Permanent Ambient Trend Monitoring Stations Located in HUC 1110.....	184
Table 22. Toxicant exceedances in HUC 1110.	184
Table 23. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1110. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	185
Table 24. Permanent Ambient Trend Monitoring Stations Located in HUC 1111.....	242
Table 25. Toxicant exceedances in HUC 1111.	242
Table 26. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1111. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	243
Table 27. Permanent Ambient Trend Monitoring Stations Located in HUC 1112.....	293
Table 28. Toxicant exceedances in HUC 1112.	293
Table 29. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1112. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	294
Table 30. Permanent Ambient Trend Monitoring Stations Located in HUC 1113.....	316
Table 31. Toxicant exceedances in HUC 1113. Underlined values were measured at the minimum quantification limit (MQL) and are reported at one-half of the MQL per 785:46-15-3(e)(2).	316
Table 32. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1113. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	317
Table 33. Permanent Ambient Trend Monitoring Stations Located in HUC 1114.....	362
Table 34. Toxicant exceedances in HUC 1114.	362
Table 35. Exceedances of fecal coliform, enterococci, and <i>E. coli</i> screening limits in HUC 1114. Only values leading to a determination of not supporting for the Public and Private Water Supply and the Primary Body Contact Recreation beneficial uses are in included.	364
