

Meeting Agenda

Water for 2060 Advisory Council

Industrial Water Use Efficiency Workshop

Date: November 18, 2014
Time: 1:00 P.M.
Location: OWRB Board Room – 3800 N. Classen, Oklahoma City

Introductions and Goals for Today **1:00-1:10**

- Advisory Council Members and Guests
- Goals for Today's Workshop

Review of Public Water Supply Measures: Water Savings and Costs **1:10-1:30**

- Review and discuss previously-transmitted presentation materials
- Considerations for prioritizing Public Water Supply recommendations

Review and Discuss Preliminary Draft Recommendations **1:30-2:30**

- Review and discuss previously-transmitted presentation materials
- Discuss and refine draft recommendations for Public Water Supply, Crop Irrigation, and Industrial/Power/Oil and Gas sectors

Break **2:30-2:40**

Continued Discussion of Draft Recommendations **2:40-3:50**

- What's missing? What's on the list that shouldn't be?
- How can we make the recommendations more specific and actionable?
- Are there any other types of recommendations specified in the Water for 2060 legislation we need to address? What wasn't addressed and how can we address it?
- Recap results from today: What is on and off the list of Advisory Council recommendations?

Next Steps and Group Resources **3:50-4:00**

- Next Advisory Council meeting: content and date
- Water for 2060 web page
