The Legislature hereby declares that, in order to protect Oklahoma citizens from increased water supply shortages and groundwater depletions by the year 2060 in most of the eighty-two watershed planning basins in the state as described in the 2012 Update of the Oklahoma Comprehensive Water Plan, the public policy of this state is to establish and work toward a goal of consuming no more fresh water in the year 2060 than is consumed statewide in the year 2012, while continuing to grow the population and economy of the state and to achieve this goal through utilizing existing water supplies more efficiently and expanding the use of alternatives such as wastewater, brackish water, and other nonpotable supplies. Provided, however, that nothing in the Water for 2060 Act shall be construed as amending the provisions of law pertaining to rights or permits to use water.

SECTION 3. AMENDATORY 82 O.S. 2011, Section 1088.1, is amended to read as follows:

Section 1088.1. A. ~~This section shall be known and may be cited as~~ There is hereby created the "Oklahoma Water Conservation Grant Program Act".

B. The Oklahoma Water Resources Board shall solicit proposals for and make grants for the establishment of pilot programs which will implement water conservation projects or plans in communities in the state.

1. Increase the awareness of the public through education programs or public information campaigns regarding the value of our water resources and how water can be used more efficiently;

2. Provide assistance to communities or entities initiating water conservation plans, programs, and activities and to research and document the potential for improving water use efficiency through demonstration projects and other activities; and

3. Assist in the development of policies which will encourage the implementation of water conservation measures.

D. For purposes of this section, communities may include entire cities or towns, combined cities or towns, parts of cities or towns, or schools, groups or entities located within a community, or one or more rural water districts or portions of water districts.

E. Contingent upon the availability of funding, the Board may award grants each year in an amount not to exceed Twenty-five Thousand Dollars (\$25,000.00) for each grant. The total amount of grants awarded each year shall not exceed Fifty Thousand Dollars (\$50,000.00).

Pilot projects may include, but are not limited to, community conservation demonstration projects, water use accounting programs, retrofit projects, school education projects, Xeriscape demonstration gardens, projects which promote efficiency, recycling and reuse of water, and information campaigns on capturing and using harvested rainwater and graywater.

G. The Board shall determine pilot project criteria and establish a process for the consideration of proposals. The proposals for pilot projects shall be considered on a statewide competitive basis. The Board shall promulgate rules for the operation of the projects.
