Clean Water State Revolving Fund (CWSRF)
Green Project Reserve Eligibility Determination

Name of System: East Central Oklahoma Water Authority
CWSRF Project Number/Loan Number: ORF-21-0016-CW

General Project Description:
East Central Oklahoma Water Authority has a sewer line that is old and failing. The 2019 flood changed underground conditions and the manholes and sewer main have been sinking. Furthermore, the water meters in the system are old and tested inaccurate by 19% and there is an average of 19% water loss through the meters. The proposed project is to remove and replace sewer line, construct a new PVC main, replace current water meters with AMR meters, including equipment and training, lift station repairs, and other appurtenances required to complete the project.
