Floodplain Development

Permit Application

For Proposed Development on State Owned or Operated Property

Mail or Fax Application to: Oklahoma Water Resources Board
Planning & Management Division
3800 N. Classen Boulevard
Oklahoma City, OK 73118
(405) 530-8800 Fax: (405) 530-8900

The Oklahoma Floodplain Management Act is located in the Oklahoma Statues under 82 O.S., 2001, §1601-1620, as amended. The Oklahoma Water Resources Board (OWRB) serves as the coordinating state agency for the National Flood Insurance Program (NFIP). State Owned and/or Operated Property must comply with state requirement(s) prior to development in the floodplain. For further information please contact OWRB.

Applicant:

____________________________________________________________________________________

Address:

____________________________________________________________________________________

Contact Person: ______________________________________________________________________

Telephone Number: ___________________________________________________________________

Project Number and Let Date (if applicable): ______________________________________________

1. General Description of Proposed Development (legal description):

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

(i.e. building, bridges, roads, placement of structures, dredging, filling, raising/lowering of grade, channelization project, drilling, mining or excavating, paving, substantial improvement, utilities, material storage, other)
2. **Location of Proposed Development** (please attach map(s) with this application – FEMA FIRMette or applicant supplied map) (circle location on map)
   
   a. County _________________________ Community Name _________________________
   
   b. FRIM Map Number and Effective Date _________________________
   
   c. Flood Zone _________________________
   
   d. Latitude _________________________ Longitude _________________________
   
   e. Name of tributary, creek, lake, or water body (attach floodplain map):
      
      _____________________________________________
      
      _____________________________________________
      
   f. Name of highway(s) and or road(s)
      
      _____________________________________________
      
      _____________________________________________
      
3. Provide lowest finished floor elevation(s) of the proposed structure or development (if applicable):
   
   _____________________________________________
   
   Provide lowest adjacent grade elevation: _________________________
   
   Provide base flood elevation: _________________________

4. Attach preliminary engineering/project report(s) for the proposed development. (Provide summary)

5. Attach hydrologic/hydraulic study(s) that address potential impacts to the floodplain from the proposed development. (Upon request)
