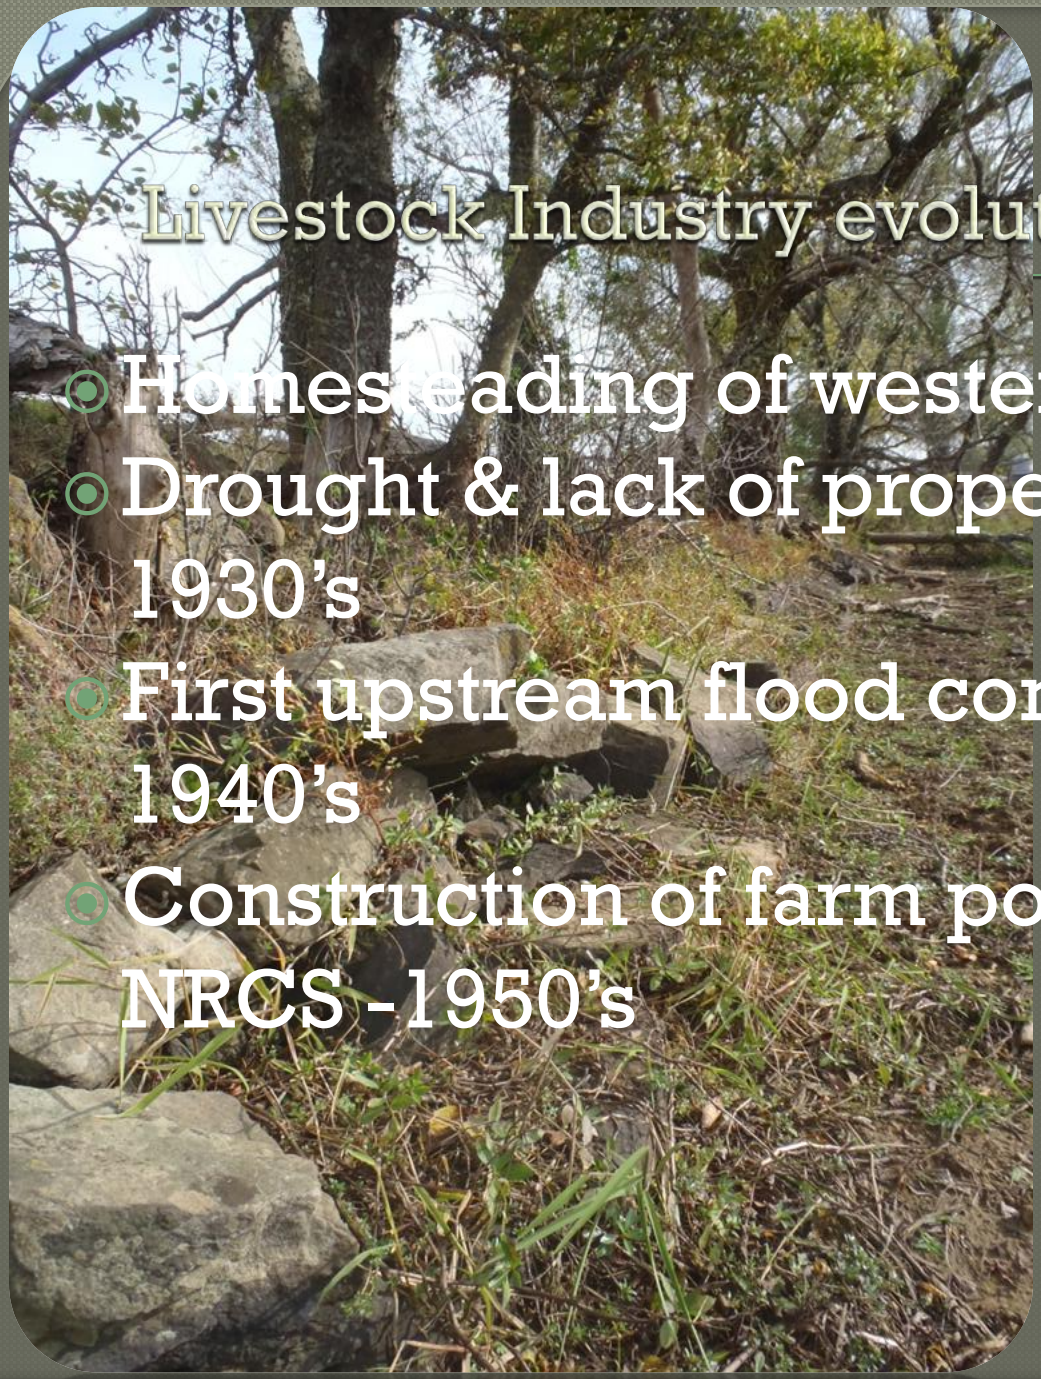
Stewardship

The careful & responsible management of something entrusted to one's care.



Livestock Industry evolution 1880's to 1990's

- Homesteading of western plains - 1880's
- Drought & lack of proper management - 1930's
- First upstream flood control structure - 1940's
- Construction of farm ponds through NRCS -1950's

Livestock Utilizing Natural Resources

- Water management implemented
- Converting farmland to permanent grassland
- Managing livestock

Future of our Industry Challenged

- Double food production by 2050
- Protecting our private property rights

Stewardship

- A true steward of the land leaves the next generation resources in better condition than he found them.
