NATIONAL WETLANDS INVENTORY  
UNITED STATES DEPARTMENT OF THE INTERIOR

DEXTER QUADRANGLE  
TEXAS-OKLAHOMA  
7.5 MINUTE SERIES (TOPOGRAPHIC)

SHERMAN INVENTORY published by the Geological Survey  
Copyright 1955 and 1958  
SHERMAN photogrammetric methods from aerial photographs  
taken 1916. Field checked 1979. Map edited 1982  
Projection: Texas coordinate system, north central zone.  
(Lambert conformal conic)  
10,000 foot grid ticks based on Texas coordinate system, south zone.  
Scale 1:24,000  
1000 feet Universal Transverse Mercator grid, 1983 datum.  
1927 NAD datum.  
To place on the projected North American Datum 1983  
move the projection 27 meters south and  
27 meters east as shown by dashed corner ticks.  
There may be private inholdings within the boundaries of  
the National or State reservations shown on this map.  
Areas covered by dashed light blue pattern  
are subject to controlled inundation.  
Fire and other information concerning the wetland resources depicted  
generally on this document may be available. For information, contact:

Regional Director (ARDE) Region II  
U.S. Fish and Wildlife Service

Albuquerque, New Mexico 87103

SPECIAL NOTE

This document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetland areas identified on the photographs based on vegetation, visible hydrology, and geography in accordance with Classification of Wetlands and Deep Water Habitats of the United States (An Operational Draft), Cowardin, et al. 1977. The aerial photographs typically reflect conditions during the specific year and season when they were taken. In addition, there is a margin of error inherent in the use of aerial photographs. Thus, a boundary on the ground and the wetland boundaries established through photographic interpretation. In addition, some small wetlands and those obscured by dense forest cover may not be included on this document.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect such activities.

NOTES TO THE USER

- Wetlands which have been field examined are indicated on the map by an asterisk (\*).
- Dominance type (either vegetative or sedentary animal) can be added to the map by the interested user.
- Additions or corrections to the wetlands information displayed on this map are solicited. Please forward such information to the address indicated.
