

UNITED STATES DEPARTMENT OF THE INTERIOR

This is a detailed topographic map of a region in the Rocky Mountains. The map features a grid with coordinates ranging from 35° 37' 30" N to 35° 33' 30" N and 104° 37' 30" W to 104° 33' 30" W. Key geographical features include Rich Mountain, Brusky, Rocky Mountain, and Pricess Chapel. The map is overlaid with a grid of 10-degree squares. Numerous points are marked with codes such as POWHx, R4SBC, and PFOIA. The map also shows contour lines, roads, and various landmarks like Hay Ridge, Radio Tower, and Sequoyah Cem. The map is titled "INTERIOR-GEOLOGICAL SURVEY, HENTON, UNIVERSITY OF" and includes a scale bar indicating distances in miles and feet.

This document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were identified on the photographs based on vegetation, visible hydrology, and geography in accordance with the definition of wetlands in the National Wetlands Inventory (An Operational Draft), Cowardin, et al, 1977. The aerial photographs typically reflect conditions during the specific year and season when they were taken. In addition, there is a margin of error inherent in the use of the aerial photographs. Thus, a detailed on the ground historical analysis of the wetlands is required for a revision of the boundaries established through photographic interpretation. In addition, some small wetlands and those obscured by dense forest cover may not be included on this

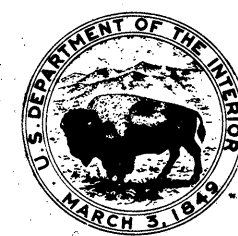

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the

- ### NOTES TO THE USER
- Wetlands which have been field examined are indicated on the map by an asterisk (*).
 - Dominance type (either vegetative or sedentary animal) can be added to the map by the interested user.
 - Additions or corrections to the wetlands information displayed on this map are solicited. Please forward such information to the address indicated.
 - Some areas designated R4SB, R4SBW, or R4SBJ (intermittent streams) may not meet the definition of wetlands.
