

NATIONAL WETLANDS INVENTORY
UNITED STATES DEPARTMENT OF THE INTERIOR

CROWDER LAKE, OKLA.

CLINTON SE
FORT COBB RESERVOIR

Other information including a narrative report concerning the wetland resources depicted on this document may be available. For information, contact:

**Regional Director (ARDE) Region II
U.S. Fish and Wildlife Service
P.O. Box 1306
Albuquerque, New Mexico 87103**

SPECIAL NOTE

SPECIAL NOTE: This document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were identified and described on the basis of visual interpretation of hydrology, and geography in accordance with **Classification of Wetlands and Deepwater Habitats of the United States**. The use of aerial photography in the identification of wetlands is a technique that typically reflects real conditions during the specific year and season when they were taken. In addition, there is considerable latitude in the use of aerial photographs. Thus, a detailed on the ground and historical analysis of a single site may result in a revision of the interpretation. In addition, some small wetlands and those obscured by dense forest cover may not be included on the map.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no intent to establish a regulatory jurisdiction on the basis of this inventory, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the regulatory jurisdiction of any Federal, State or local government agency. **Persons intending to engage in activities involving modifications within or adjacent to wetland areas, or persons desiring to determine the regulatory jurisdiction of local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect**

SYMBOLGY EXAMPLE

NOTES TO THE USER

- ## NOTES TO THE USER
- Wetlands which have been field examined are indicated on the map by an asterisk (*).
 - Additions or corrections to the wetlands information displayed on this map are solicited. Please forward such information to the address indicated.
 - Subsystems, Classes, Subclasses, and Water Regimes in *italics* were developed specifically for NATIONAL WETLANDS INVENTORY mapping.
 - Some areas designated as R4SB, R4SBW, OR R4SBJ (INTERMITTENT STREAMS) may not meet the definition of a wetland.
 - This map uses the class Unconsolidated Shore (US). On earlier NWI maps that class was designated Beach/Bar (BB), or Flat (FL). Subclasses remain the same in both versions.
