Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to state the limits of proprietary jurisdiction of any Federal, State or local government or to establish the geographic scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modification of adjacent wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specified Federal, State or local agencies concerning specific Federal, State or local regulatory jurisdictions that may affect such activities.

- Wetlands which have been field examined are indicated on the map by an asterisk (*).
- Additions or corrections to the wetlands information displayed on the map are noted. Please forward such information to the address indicated.
- Subsystems, Classes, Subclasses, and Water Regimes in *italics* were developed specifically for NATIONAL WETLANDS INVENTORY mapping.
- Some areas are designated as RASBW, or RASBJ (INTERMITTENT STREAMS) may not meet the definition of wetland.
- This map uses the class Unconsolidated Shore (US).
- On earlier NWI maps that class was designated Beach/Bar (BB) or Flat (FL). Subclasses remain the same for both versions.
