

UNITED STATES DEPARTMENT OF THE INTERIOR

37'30" 718 R. 6 E. R. 7 E.

Regional Director (ARDE) Region II

Albuquerque, New Mexico

This document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were hydrology, and geography in accordance with **Classification of Wetlands and Deep-Water Habitats of the United States** (An Operational Draft, Cowardin, et al, 1977). The specific year and season when they were taken. In addition, there is a margin of error inherent in the use of the aerial photographs. Thus, a detail on the ground and the wetland boundaries established through photographic interpretation. In addition, some small wetlands and those obscured by dense forest cover may not be included on this document.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is, therefore, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the geographical scope of the regulatory program of any Federal, State or local government, this document is intended to provide modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specific wetlands that may affect such activities.

and prophetic, judgments were made, and
