

NATIONAL WETLANDS INVENTORY
UNITED STATES DEPARTMENT OF THE INTERIOR

OKLAHOMA CITY SE
SHAWNEE

LAMAR, OKLA. 3596-112

SCALE 1:24,000

Other information concerning the wetland resources depicted on this document may be available. For information, contact:

Regional Director (ARDE) Region II
U.S. Fish and Wildlife Service
P.O. Box 1306
Albuquerque, New Mexico 87103

SPECIAL NOTE
This document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were identified on the photographs based on vegetation, visible hydrology, and geography in accordance with *Classification of Wetlands and Deep-Water Habitats of the United States* (An Operational Draft), Cowardin, et al., 1977. The aerial photographs typically reflect conditions during the specific year and season when they were taken. In addition, there is a margin of error inherent in the use of the aerial photographs. Thus, a detailed on the ground and historical analysis of a single site may result in a revision of the wetland boundaries established through photographic interpretation. In addition, some small wetlands and those obscured by dense forest cover may not be included on this document.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect such activities.

NOTES TO THE USER
Wetlands which have been field examined are indicated on the map by an asterisk (*).
Dominance type (either vegetative or sedimentary animal) can be added to the map by the interested user.
Additions or corrections to the wetlands information displayed on this map are solicited. Please forward such information to the address indicated.
Some areas designated R4SBC, R4SBW, or R4SBJ (intermittent streams) may not meet the definition of wetlands.

WETLAND LEGEND

U - Primarily represents upland areas, but may include unclassified wetlands such as man-modified areas, non photo-identifiable areas and/or unintentional omissions.

E - ESTUARINE				M - MARINE			
1 - Subtidal				2 - Intertidal			
CLASS	Subclass	Subclass	Subclass	CLASS	Subclass	Subclass	Subclass
R4SBC	1 Bedrock	2 Boulder	3 Sand	R4SBC	1 Bedrock	2 Boulder	3 Sand
U	4 Organic	5 Unknown	6 Unknown	U	4 Organic	5 Unknown	6 Unknown
P - PALUSTRINE				L - LACUSTRINE			
1 - Tidal				2 - Littoral

R4SBC	1 Bedrock	2 Boulder	3 Sand
U	4 Organic	5 Unknown	6 Unknown

MODIFYING TERMS			
In order to more adequately describe wetland and aquatic habitats one or more of the water regime, water chemistry, soil, or special modifiers may be applied at the class or lower level in the hierarchy. The farm modifier may also be applied to the ecological system.			
WATER REGIME(1)	WATER CHEMISTRY	SOIL	SPECIAL MODIFIERS
Non-Tidal	Coastal Salinity	Inland Salinity	pH Modifiers for all Fresh Water
1 Permanent	1 Saline	1 Saline	1 Acid
2 Intermittently Flooded	2 Saline	2 Saline	2 Alkaline
3 Intermittently Flooded	3 Saline	3 Saline	3 Alkaline
4 Intermittently Flooded	4 Saline	4 Saline	4 Alkaline
5 Intermittently Flooded	5 Saline	5 Saline	5 Alkaline
6 Intermittently Flooded	6 Saline	6 Saline	6 Alkaline
7 Intermittently Flooded	7 Saline	7 Saline	7 Alkaline
8 Intermittently Flooded	8 Saline	8 Saline	8 Alkaline
9 Intermittently Flooded	9 Saline	9 Saline	9 Alkaline
10 Intermittently Flooded	10 Saline	10 Saline	10 Alkaline

(1) EM - EMERGENTS are only found in the Riverine Tidal and Riverine Lower Perennial Ecological Subsystem. All other classes are found in all Riverine Ecological Subsystems.

(1) Information on the water regime modifiers found on this legend, but not found in the classification system, may be obtained from the above listed source.
