UNITED STATES DEPARTMENT OF THE INTERIOR

A graphic scale bar with three units of measurement. The top scale is in miles, with a mark at 1 mile. The middle scale is in feet, with marks at 1000, 2000, 3000, 4000, 5000, 6000, and 7000 feet. The bottom scale is in kilometers, with marks at 1 and 5 kilometers. The scales are aligned such that 1 mile is approximately equal to 5280 feet and 1.6 kilometers.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt to, either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect such activities.

- Wetlands which have been field examined are indicated on the map by an asterisk (*).
- Dominance type (either vegetative or sedentary animal) can be added to the map by the interested user.
- Additions or corrections to the wetlands information displayed on this map are solicited. Please forward such information to the address indicated.
- Some areas designated R4SB, R4SBW, or R4SBJ (intermittent streams) may not meet the definition of wetlands.
