UNITED STATES DEPARTMENT OF THE INTERIOR

This is a detailed topographic map of the Adair County, Oklahoma area. The map features a grid system with coordinates ranging from 23° 30' N to 36° 30' N latitude and 95° 52' 30" W to 96° 00' W longitude. The map is densely populated with points of interest, many of which are labeled with codes such as POWHH, PFOIA, R4SBC, and PEMIC. These points are often accompanied by small symbols, possibly representing buildings or other structures. The map also shows various geographical features, including roads, rivers, and terrain contours. A scale bar at the bottom indicates distances in miles and feet. The map is oriented with North at the top.

Regional Director (ARDE) Region II
U.S. Fish and Wildlife Service

Albuquerque, New Mexico 87103

SPECIAL NOTE
The high altitude map was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were identified on the photographs based on vegetation, visual hydrology, and geography in accordance with **Classification of Wetlands and Deepwater Habitats** (National Wetlands Inventory, United States (An Operational Draft), Cowardin, et al, 1977). The aerial photographs typically reflect conditions during the specific year and season when they were taken. In addition, there is a margin of error in the interpretation of the aerial photographs. The data obtained from the ground and historical analysis of a single site may result in a revision of the wetland boundaries established through photographic interpretation. In addition, some small wetlands and those with dense forest cover may not be included on this document.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in wetland activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specified agency regulatory programs.

SYSTEM

SUBSYSTEM CLASS

E2EM5N

SUBCLASS, WATER REGIME

UPLAND (NON-WETLANDS)

PF or PKf

FARMED WETLANDS

CONTROLLED WATER REGIME

NOTES TO THE USER

- Wetlands which have been field examined are indicated on the map by an asterisk (*).
- Dominance type (either vegetative or sedentary animal) can be added to the map by the interested user.
- Additions or corrections to the wetlands information displayed on this map are solicited. Please forward such information to the address indicated.
- Some areas designated R4SB, R4SBW, or R4SBJ (intermittent streams) may not meet the definition of wetlands.
