

NATIONAL WETLANDS INVENTORY
UNITED STATES DEPARTMENT OF THE INTERIOR

Topographic map of the WATONGA SE, OKLA. area. The map shows a grid of land parcels, roads, and geographical features. Key locations and features include:

- Grid Coordinates:** The map is overlaid with a grid showing latitude and longitude coordinates. Latitude ranges from 35° 52' 30" N to 36° 00' 00" N, and longitude ranges from 98° 15' 00" W to 98° 10' 00" W.
- Geographical Features:** The map shows various land parcels, roads, and geographical features. Key locations and features include:
 - WATONGA SE, OKLA.:** The main area of interest, showing various land parcels and roads.
 - WATONGA SE, OKLA.:** The main area of interest, showing various land parcels and roads.
 - WATONGA SE, OKLA.:** The main area of interest, showing various land parcels and roads.
- Other Labels:** The map includes various other labels, such as "WATONGA SE, OKLA.", "WATONGA SE, OKLA.", and "WATONGA SE, OKLA.", which likely refer to specific land parcels or roads.

Other information including a narrative report concerning the wetland resources depicted on this document may be available. For information, contact:

SPECIAL NOTE

SPECIAL NOTE

This document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were identified on the photographs based on vegetation, visible hydrology, and geography in accordance with **Classification of Wetlands and Deepwater Habitats of the United States (FWS/OBS - 79/31 December 1979)**. The aerial photographs typically reflect conditions during the specific year and season when they were taken. In addition, there is a margin of error inherent in the use of the aerial photographs. Thus, a determination of the wetland boundaries on the map may result in a revision of the wetland boundaries established through photographic interpretation. In addition, some small wetlands and those obscured by dense forest cover may not be included on this document.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, State or local government or to establish the geographical scope of the regulatory programs of government agencies. **Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specified agency regulatory**

NOTES TO THE USER

- NOTES TO THE USER**
- Wetlands which have been field examined are indicated on the map by an asterisk (*).
 - Corrections or additions to the wetlands information displayed on this map are solicited. Please forward such information to the address indicated.
 - Subsystems, Classes, Subclasses, and Water Regimes in *italics* were developed specifically for NATIONAL - WETLANDS INVENTORY mapping.
 - Some areas designated as R4SB, R4SBW, or R4SBJ (INTERMITTENT STREAMS) may not meet the definition of a stream.
 - This map uses the class Unconsolidated Shore (US).
 - On earlier NWI maps that class was designated Beach/Bar (BB), or Flat (FL). Subclasses remain the same in both versions.
