RE: Term Limited Quantity Stream Water Application No. 2026-018, Allen Contracting Inc.,
Oklahoma County

Dear Mr. Divine:

Your application to use stream water has been reviewed by Board staff. In order to obtain a permit, you must provide notice of the essential facts about your intended use by newspaper publication. In accordance with 82 O.S. 2001, Sec. 105.11, we have enclosed Notices of Application to be published at your expense in newspapers having a general circulation in the county of your point of diversion, Oklahoma County, and the adjacent downstream county, Lincoln County. The notices must appear in the newspapers during the week beginning on June 14, 2026. Please send us or have the publishers forward a copy of the Certified Proof of Publications within five days after the publication date. Because the Board is not responsible for the form, content or accuracy of the enclosed notices, please review the notices and contact this office if you note any errors.

In addition to notice by publication, the Oklahoma Supreme Court case of Purcell v. Parker, 2020 OK 83, 475 P.3d 834, requires the enclosed Notices of Application be provided personally to all "known or easily discoverable" landowner[s] whose legally protected interests may be directly and adversely affected by your application to use stream water. Personal notice must be completed by June 14, 2026. Please return the Affidavit of Notification and signed proof of service within fifteen (15) days after completing personal notice. Because the Board is not responsible for the form, content, or accuracy of the enclosed notices, please review the notices and contact this office if you discover any errors.

Any interested person may file a written protest to your application. For party standing, protestants must provide specific information to show how approval of your application may directly and adversely affect their legally protected interests. Persons who submit only objections or comments will not be deemed to be parties. See OAC 785:4-5-4 for protest requirements. If your application is protested, we will notify you and a hearing may be scheduled. Please contact Sharon Robinson at Sharon.robinson@owrb.ok.gov, at the address below, or call (405) 530-8800 if you have any questions concerning this matter.

Sincerely,

Chris Neel, Division Chief
Water Rights Administration Division

NOTE TO PUBLISHER: To be published in Oklahoma County once during the week of June 14, 2026 but no later than June 20, 2026, AT APPLICANT'S EXPENSE. (PUBLISHER NEEDS TO FURNISH THE OKLAHOMA WATER RESOURCES BOARD A CERTIFIED PROOF OF PUBLICATION ON OR BEFORE July 6, 2026.)

NOTICE OF APPLICATION TO USE STREAM WATER

Allen Contracting Inc. c/o Chase Divine whose address is PO Box 1178, Oklahoma City, OK 73101 has filed an application, 2026-018, with the Oklahoma Water Resources Board (Board) for a one (1) year term permit to use 2.5 acre-feet of stream water per year at a diversion rate not to exceed 800 gallons per minute from Deep Fork River in the SW SE NE of Section 16, T13N, R2WIM, Oklahoma County. The water is proposed to be used for roadway construction activity on 18 acres in the E2 of Section 16, T13N, R2WIM, Oklahoma City. Use of stream water is governed by Sections 105.1 and following of Title 82 of the Oklahoma Statutes and rules of the Board, Oklahoma Administrative Code (OAC), Title 785, Chapters 4 and 20.

6. JUSTIFICATION OF PRESENT AND FUTURE NEED Check all that apply and read the description next to each purpose (i.e. beneficial use). Attach a separate justification as necessary.

- Agriculture (e.g. poultry houses, feedlots, aquaculture, greenhouses, etc.):** Submit methodology, calculations, and additional information used to determine the amount of water requested. For animal operations make sure to specify how many of each type of animal is raised per year and their water requirements. For greenhouses make sure to specify the quantity of each type of plant grown per year, their water requirements, length of growing season, and how many grows are completed per year.
- Commercial:** Submit methodology, calculations, and additional information used to determine the amount of water requested.
- Industrial (e.g. manufacturing):** Submit methodology, calculations, and additional information used to determine the amount of water requested.
- Irrigation (e.g. crops in a field):** Completion of Section #3 serves as your justification for irrigation of common crops grown in Oklahoma. The Board will use appropriate publications as well as take into consideration any information submitted by the applicant in determining the amount of water needed. If multi-cropping, please attach a separate rotation schedule.
- Mining (e.g. oil & gas, quarries, etc.):** Submit methodology, calculations, and additional information used to determine the amount of water requested. For oil & gas operations make sure to specify the following: 1) what the water will be used for (e.g. hydraulic fracturing), 2) how many separate wells will be provided water, and 3) how many barrels or gallons of water are needed for each well (42 gallons = 1 barrel).
- Other:** Submit methodology, calculations, and additional information used to determine the amount of water requested. Make sure to provide a statement with enough detail to clearly describe the proposed use of water.
- Power Generation (e.g. hydroelectric dams, natural gas plants, wind turbines, etc.):** Submit methodology, calculations, and additional information used to determine the amount of water requested. A schedule of use based on population growth in the specific area served may also be submitted.
- Public Water Supply (e.g. municipal or rural water systems, schools, hospitals, etc.):** Submit population projection figures and other methodologies, calculations, and additional information used to determine the amount of water requested. A map showing water lines and the service area is required of municipalities and rural water systems and must show points of reference or scale. A schedule of use based on population growth in the specific area served may also be submitted.
- Recreation Fish & Wildlife:** Submit methodology, calculations, and additional information used to determine the amount of water requested. For flooding a wetland, provide the wetland dimensions and the amount and frequency of flooding.

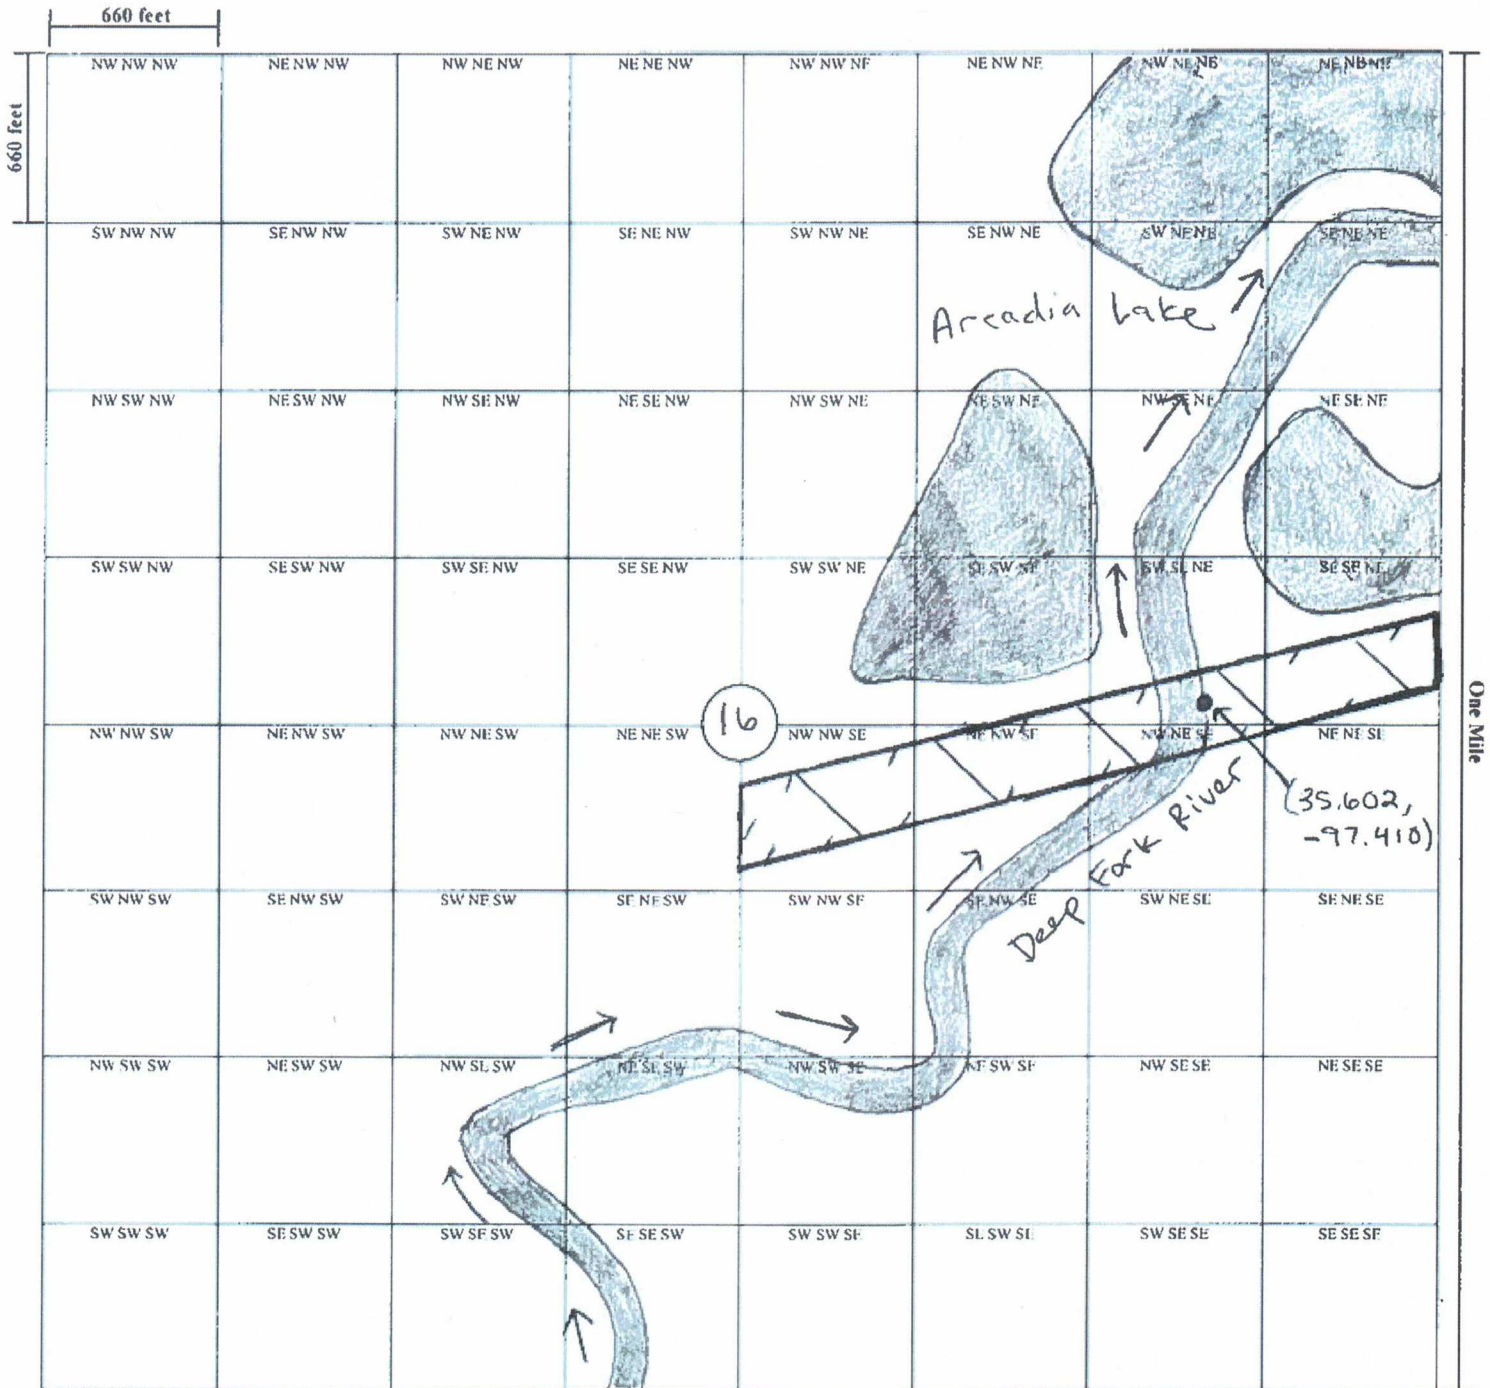

7. **PLAT MAP** Follow the instructions on the preceding page unless otherwise directed by the Board. Drawings must match the legal description of diversion points and area of use described in Section 4 and 5 of the application. More than one plat map may be required

10. SUBMISSION AND PROCESSING

The submitted application packet must include the following:

- a. **Original completed application** (Typed or printed in ink, with legible markings, signed and notarized.);
- b. **Filing fee payment** (Review of the application will not begin until the filing fee is received. Filing fees are refunded at the discretion of the OWRB. Preferred payment method is a check payable to the OWRB. Other payment methods include cash, money order, or credit card via the OWRB Website Pay Portal – please provide a copy of the Pay Portal receipt. If water is used before application approval, double the filing fee will be required.);
- c. **Ownership documents** (Copies of deeds, leases, easements, rights-of-access, and/or other letters of consent for all the land owned/controlled by the applicant associated with the application. Tax documents are not accepted. Social security numbers are not required and should be marked out on documents that contain them.)
- d. **Any other documentation requested by OWRB staff as necessary** (Articles of organization or incorporation, memorandum of trust, license or registration from OMMA or ODAFF, contract for water sales, etc.).

Please note: Any incomplete or unresponsive answers may cause a delay in the processing of your application.

All stream water permits issued by the Board contain a condition and limitation that the use of stream water shall not interfere with domestic uses or existing appropriative rights. If the full amount of water is not able to be used within the first seven (7) years after permit approval, please contact Board staff to discuss possible options, such as submitting a schedule of use. In addition, Oklahoma Administrative Code (OAC) 785:20-3-9 states: (a) "Upon filing of an application that is defective as to form or unsatisfactory as to feasibility or safety of the plan or as to the showing of the ability of the applicant to carry the construction to completion, the Board shall advise applicant of the correction, amendments, or changes required, and sixty (60) days from the date the Board so advises shall be allowed for the filing thereof. [82:105.10]" (b) "Any corrected application filed after the time allowed in (a) of this Section shall be treated in all respects as a new application on the date of its re-filing [82:105.10] and the original priority date of filing shall be lost." (c) "If an applicant does not correct an application or publish notice as instructed by the Board, and no further proceedings are initiated by the applicant for six months or more after last contact with the Board, the application shall be deemed withdrawn. The Board shall provide notice to the applicant that the application has been deemed withdrawn."

I authorize the Oklahoma Water Resources Board (OWRB) to make the following revisions to the Stream Water Permit Application #2026-018:

1. Section 3. QUANTITY OF WATER & PURPOSE
 - a. The amount of water requested will be changed to **2.5 acre-feet** per year for the purpose of Roadway Construction and for the total acre-feet of stream water per year.

2. Section 4. DIVERSION OF WATER
 - a. Change the amount of water to **2.5 acre-feet** and description of the diversion point to: **SW SE NE of Section 16, Twp 13N, Rng 2WIM in Oklahoma County**

3. Section 5. AREA OF USE
 - a. Change the description to:
 - i. **18 acres in the E2 of Section 16, Twp 13N, Rng 2WIM in Oklahoma County**

4. Section 6. JUSTIFICATION OF PRESENT AND FUTURE NEED
 - a. Please write below (or attach) the methodology, calculations, and additional information used to determine the amount of water requested. Make sure to provide a statement with enough detail to clearly describe the proposed use of water and length of time the water will be needed.

To come up with the 2.5 Acre Feet, Allen Contracting will average an estimated 20,000 Gallons per week. With our 90 day temporary permit we will have 260 days left for this roadway project. That is around 37 weeks at 20,000 gallons per week, which is just shy of 2.5 Acre Feet.

The water is being used for a roadway construction project for the Oklahoma Turnpike Authority that has 350 calendar days on the contract.

5. The revised plat map will take the place of the original.
