Honorable Members of the Oklahoma Water Resources Board:

Many of my friends and neighbors have been waiting years to permit their water. SB 288 set a MAY that will greatly reduce the amount of water available for use. By allowing some permit holders to continue to use up to 2 ac-ft/ac during the phase-in period while everyone else is limited to 0.2 ac-ft/ac, the OWRB is not offering equal protection under the law to all landowners.

Respectfully,

A handwritten signature in black ink that reads "Lorene Black". The signature is written in a cursive, flowing style.
