6. JUSTIFICATION OF PRESENT AND FUTURE NEED *(Check all of the purposes in which you plan to use water and separately provide the requested information.)*

- Agriculture (e.g. poultry houses, feedlots, aquaculture, greenhouses, etc.):** Submit methodology, calculations, and additional information used to determine the amount of water requested. For animal operations make sure to specify how many of each type of animal is raised per year and their water requirements. For greenhouses make sure to specify the quantity of each type of plant grown per year, their water requirements, length of growing season, and how many grows are completed per year.
- Commercial:** Submit methodology, calculations, and additional information used to determine the amount of water requested.
- Industrial (e.g. manufacturing):** Submit methodology, calculations, and additional information used to determine the amount of water requested.
- Irrigation:** Completion of Section #3 serves as your justification for irrigation of common crops grown in Oklahoma. The Board will use appropriate publications as well as take into consideration any information submitted by the applicant in determining the amount of water needed. If multi-cropping, please attach a separate rotation schedule.
- Mining (e.g. oil & gas, quarries, etc.):** Submit methodology, calculations, and additional information used to determine the amount of water requested. For oil & gas operations make sure to specify the following: 1) what the water will be used for (e.g. hydraulic fracturing), 2) how many separate wells will be provided water, and 3) how many barrels or gallons of water are needed for each well (42 gallons = 1 barrel).
- Other:** Submit methodology, calculations, and additional information used to determine the amount of water requested. Make sure to provide a statement with enough detail to clearly describe the proposed use of water.
- Power Generation (e.g. hydroelectric dams, natural gas plants, wind turbines, etc.):** Submit methodology, calculations, and additional information used to determine the amount of water requested. A schedule of use based on population growth in the specific area served may also be submitted.
- Public Water Supply (e.g. municipal or rural water systems, schools, hospitals, etc.):** Submit population projection figures and other methodologies, calculations, and additional information used to determine the amount of water requested. A map showing water lines and the service area is required of municipalities and rural water systems and must show points of reference or scale. A schedule of use based on population growth in the specific area served may also be submitted.
- Recreation Fish & Wildlife:** Submit methodology, calculations, and additional information used to determine the amount of water requested.

7. PLAT MAP (*Sample*)

Applicant Name John and Jane Doe

Office Use Only: Application No. _____

The plat below represents one full section (640 acres). Drawings must match the legal descriptions provided in questions #4 and #5 of the application. More than one plat map may be required.

Instructions and Use of Symbols on the Application Plat

1. Write the applicant name on the top of the page (should match your ownership document).
2. Write the section number in the circle in the middle of the section and the legal description and county on the bottom of the page.
3. Draw water features including rivers, creeks, ponds, lakes, and reservoirs and write their names if known.
3. Draw the land you own or lease. Denote this with tick marks around the land boundary.
4. Draw the area you plan to use the water. Denote this with parallel diagonal lines.
5. Spot the location of each diversion point. Diversion points should be placed at the source of the water you want to use. *For example, if you irrigate a field with water from a farm pond, but you filled the farm pond with water pumped from a nearby creek, then your diversion point should be placed on the creek. The pond would be considered part of your area of use.*

9. APPLICATION SUBMISSION AND PROCESSING

The submitted application packet must include the following:

- a. The original completed application, typed or printed in ink, signed and notarized (*All markings must be legible.*);
- b. The appropriate filing fee (*Application review will not begin until the proper filing fees are received. If water is used before application approval, double the filing fee will be required. Filing fees will not be refunded unless an overpayment was made by the applicant.*);
- c. Copies of warranty deeds, leases, and/or letters of consent as required (*Tax documents are not accepted. Social security numbers are not required. If any documentation contains social security numbers, please obscure them before submittal.*).
- d. Other documentation may be requested as needed to complete the application review.

If you believe that within the first seven (7) years after issuance of your permit you will not be able to use the full amount of water applied for, please contact Board staff to discuss possible options such as submitting a schedule of use.

Please note: Any incomplete or unresponsive answers may cause a delay in the processing of your application.

In addition, Oklahoma Administrative Code (OAC) 785:20-3-9 states: (a) "Upon filing of an application that is defective as to form or unsatisfactory as to feasibility or safety of the plan or as to the showing of the ability of the applicant to carry the construction to completion, the Board shall advise applicant of the correction, amendments, or changes required, and sixty (60) days from the date the Board so advises shall be allowed for the filing thereof. [82:105.10]" (b) "Any corrected application filed after the time allowed in (a) of this Section shall be treated in all respects as a new application on the date of its refiling [82:105.10] and the original priority date of filing shall be lost." (c) "If an application does not correct an application or publish notice as instructed by the Board, and no further proceedings are initiated by the applicant for six months or more after last contact with the Board, the application shall be deemed withdrawn. The Board shall provide notice to the applicant that the application has been deemed withdrawn."
